

PRODUCT / SERVICE SHEET 6

ALUMINUM ANODES

Aluminum Anodes are used as a form of corrosion control on salt water tanks. All of the anodes meet US Government Specifications MIL-A-21412A and are available for all tank sizes.

1. Single eyed 3 in. x 60 in. anode
 2. Double eyed 3 in. x 60 in. anode
 3. Spherical anode
 4. Red head anode
- Other designs available upon request

ATC recommends inspecting and replacing anodes, if required, on a periodic basis.
