

WELDED TANKS

SHOP WELDED TANKS

Standard carbon steel shop welded tanks can range in size from 65 to 1000 Bbls. Closed top, open top and gun barrel applications are available in various sizes to fit your project. Special tank sizes and/or bottom/roof modifications are also available. Tanks are primed, painted, and coated according to the customer's specifications. American Tank Company maintains an inventory of new and refurbished welded tanks to fit the customer's needs.
