

PRODUCT / SERVICE SHEET 16

FIBERGLASS TANKS

We supply fiberglass tanks that are built to API 12-P specifications. These tanks are available in the same sizes as steel tanks. Standard fiberglass tanks can range in size from 65 to 1000 Bbls. Closed top, open top and gun barrel applications are available in various sizes to fit your project.

POLY TANKS

We supply polyurethane tanks in a variety of capacities ranging from 25 gallons to 12,250 gallons. Various dimensions are available to fit your project specifications. Poly Tanks are a light weight solution for your chemical or water storage needs and are available in the following materials:

1. Cross-linked Polyethylene (XLPE) - high grade polyethylene, used for storage of solutions and chemicals; corrosion resistant.
2. High Density Liner Polyethylene (HDLPE) - Primarily for water and food storage; FDA approved.
